

Community Hospital of San Bernardino's Mission

Community Hospital of San Bernardino is a non-profit, full service, acute care hospital in business to provide acute inpatient care, long-term care, and a wide range of outpatient, ancillary, and therapeutic care.

- We feel a deep responsibility to our patients, to our physicians, to our employees, and to the community we serve.
- We are committed to providing caring, efficient, quality, professional services to our patients.
- We are committed to providing our physicians with an appropriate environment in which to treat their patients, including clean and modern facilities, equipment, and optimally trained staff. We are committed to providing challenging and rewarding opportunities, fair compensation, and safe working conditions for our employees. We seek to attract capable, highly motivated employees who are oriented and foster an environment that encourages employees' development to their full potential.

The organization is committed to participating with the community in being a resource to the citizens, in the determination of their needs. We are committed to conducting our business in a socially responsible manner, consistent with the highest ethical and moral standards.

Quality care.
Close to home.

At **Community Home Health**, our program of services provides patients with the security of being close to family and friends and the convenience of receiving care in one's own home. We realize that each patient is unique. So to help ensure the highest quality care available, our clinical team consults with the patient's physician to develop a customized treatment plan that meets the individual's specific home health care needs. Our dedicated clinical team includes the following:

- Home Health Aides
- Medical Social Workers
- Occupational Therapists
- Physical Therapists
- Registered Nurses
- Speech Therapists

The confidence of
compassionate, quality care.
The comfort of home.

A complete range of services for the patient at home.

Our skilled team of clinical professionals is highly experienced in providing care for a wide range of patients and managing a variety of disease states and conditions in the home care setting. The following are among the many services provided on an individual basis:

- Disease Management
- Enterostomal Management
- HIV Care
- Infusion Therapy Management
- Maternal Child Health
- Pain Management
- Pediatric Care
- Post-Operative Care
- Psychiatric Nursing
- Rehabilitative Care
- Total Parenteral Nutrition Management
- Wound Therapy

Comprehensive services. Quality care.

Our home care team is available around the clock, seven days a week, 24 hours a day, at (877) 966-3066 or our main line at (909) 887-6391. We're just a phone call away to provide support, answer your questions, or meet the patient's specific needs. We not only deliver compassionate medical care, but we also take care of everything necessary to establish and maintain the highest level of care in the patient's home. This includes coordination of all the services and equipment necessary to optimize health and maintain comfort. We also provide complete patient and caregiver education and community resource information to assist the patient and caregiver with care needs when our staff is not in the home.

Our entire team is dedicated to serving the specialized needs of each and every patient: from our home care professionals, who carefully coordinate the patient's treatment plan under the supervision of the patient's own physician, to case managers who make sure that the transition from hospital to home is as smooth and easy as possible. In addition, our reimbursement specialists are available to assist with insurance verification and financial questions that may arise.

With a program that ensures continuity of care and quality service, both physicians and patients rely on **Community Home Health**.

When being at home is the most comfortable choice.
