

## Community Hospital of San Bernardino Children's Subacute Center

Community Hospital of San Bernardino (CHSB) is a non-profit hospital with a wide range of in-patient, out-patient, ancillary, and therapeutic services. The hospital is an affiliate of Catholic Healthcare West (CHW).

Children's Subacute Center is an expansion of the Subacute services offered by Community Hospital of San Bernardino with supportive services from VitalCare America.

The Children's Subacute Center is a 34-bed, freestanding pediatric subacute care facility on the CHSB campus. Our campus is conveniently located one mile west of the Highland Avenue exit off the 215 freeway or one-half mile east of the State Street exit off the 210 freeway in the City of San Bernardino, San Bernardino County.

### Complex needs. Exceptional care.

The Children's Subacute Center at Community Hospital of San Bernardino is dedicated to children who have long-term, clinically complex conditions. Our teams of subacute specialty physicians, highly trained nurses, case managers and therapists offer excellent patient care.

Our goal is to maximize our residents' quality of life by offering the finest specialized treatment plan, with an ambiance that feels just like home.

Our Children's Subacute Center is decorated in a colorful oceanic theme to bring comfort and joy to our young residents.

## VitalCare America The Subacute Specialists

VitalCare America provides operational support to Children's Subacute Center and Community Hospital of San Bernardino. VitalCare is a pioneer and leader in subacute care management. Their mission is to develop programs that provide alternative methods of care for children and adults with complex medical needs.

# Children's Subacute Center... Where Smiles are Contagious!

## Our Mission

The mission at Community Hospital of San Bernardino's Children's Subacute Center is to provide compassionate, high quality, subacute care services in a warm environment that feels just like home.

We are caring people operating an extraordinary facility dedicated to family-centered care for medically fragile children. Our goal as healthcare professionals is to provide high quality, safe, clinical care and specialized family training that is supportive of each individual resident.

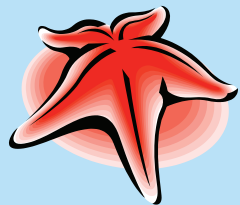

Children's Subacute Center's physicians and staff work around the clock to help each child attain a quality of life that allows them to develop to their highest potential with the promise of achieving the "smile" that exists inside each of our residents.

## Core Values

Children's Subacute Center puts each resident first by:

- Helping each resident reach their recovery goal—and when possible—returning home where they belong
- Collaborating with primary care providers in the communities we serve
- Advocating for children and supporting the role of the family
- Supporting the mission and values of CHSB and CHW

## Our Philosophy

The program is built around the core belief that we must help each resident achieve the highest quality level of functioning as possible and the best quality of life. This is achieved by providing the best medical, physical, and emotional care to each child. Our success is measured by the smiles we receive from our residents. We believe when a resident smiles they are saying we are doing a good job. Which is why. . .

**“Smiles are Contagious”  
at Children's Subacute Center.**
